NUMED AI-BASED TELEMEDICINE

NuMed AI specializes in analyzing radiology images, including Chest X-Rays and lung CT scans, as well as blood tests. Our AI model delivers interpretable results, allowing experts to delve deeper into the data and validate outcomes with confidence. NuMed AI has the potential to make a profound impact on the healthcare industry, particularly in the ongoing fight against the COVID-19 pandemic.

WHAT THE DATA SAYS ABOUT WOMEN IN TECH

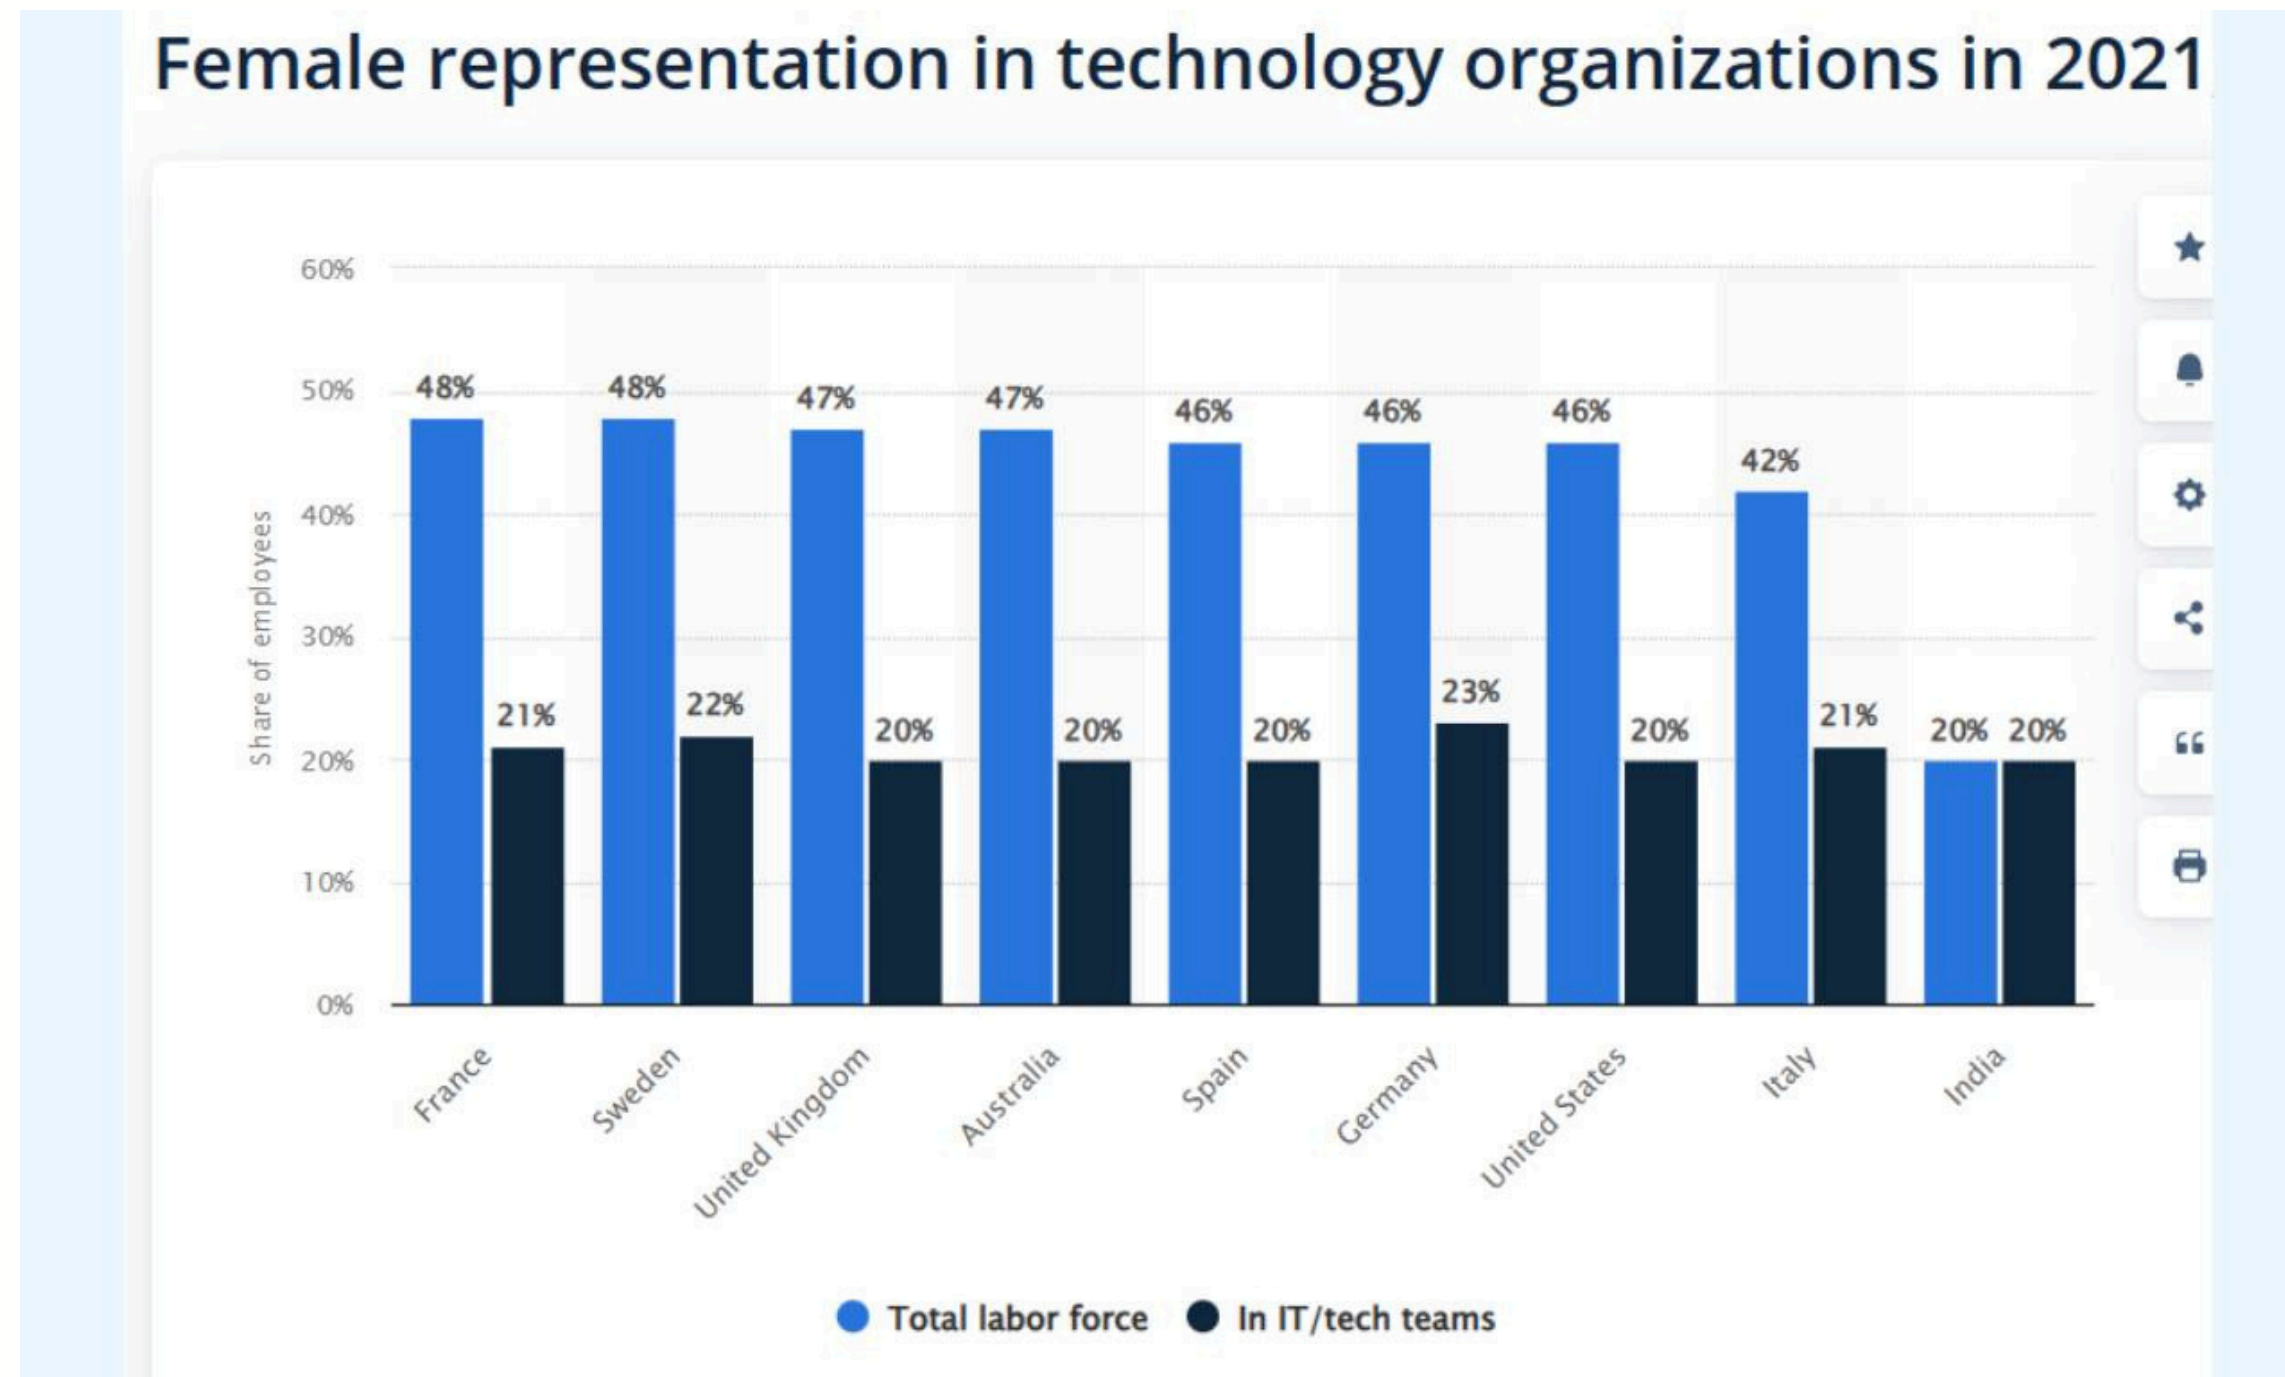

Statistic #1: 50% of Women Leave the Tech Industry by the **Age of 35**

<https://bigblue.academy/en/statistics-for-women-in-tech>

Statistic #2: Women's Representation in Tech Companies Stands **at 48%**

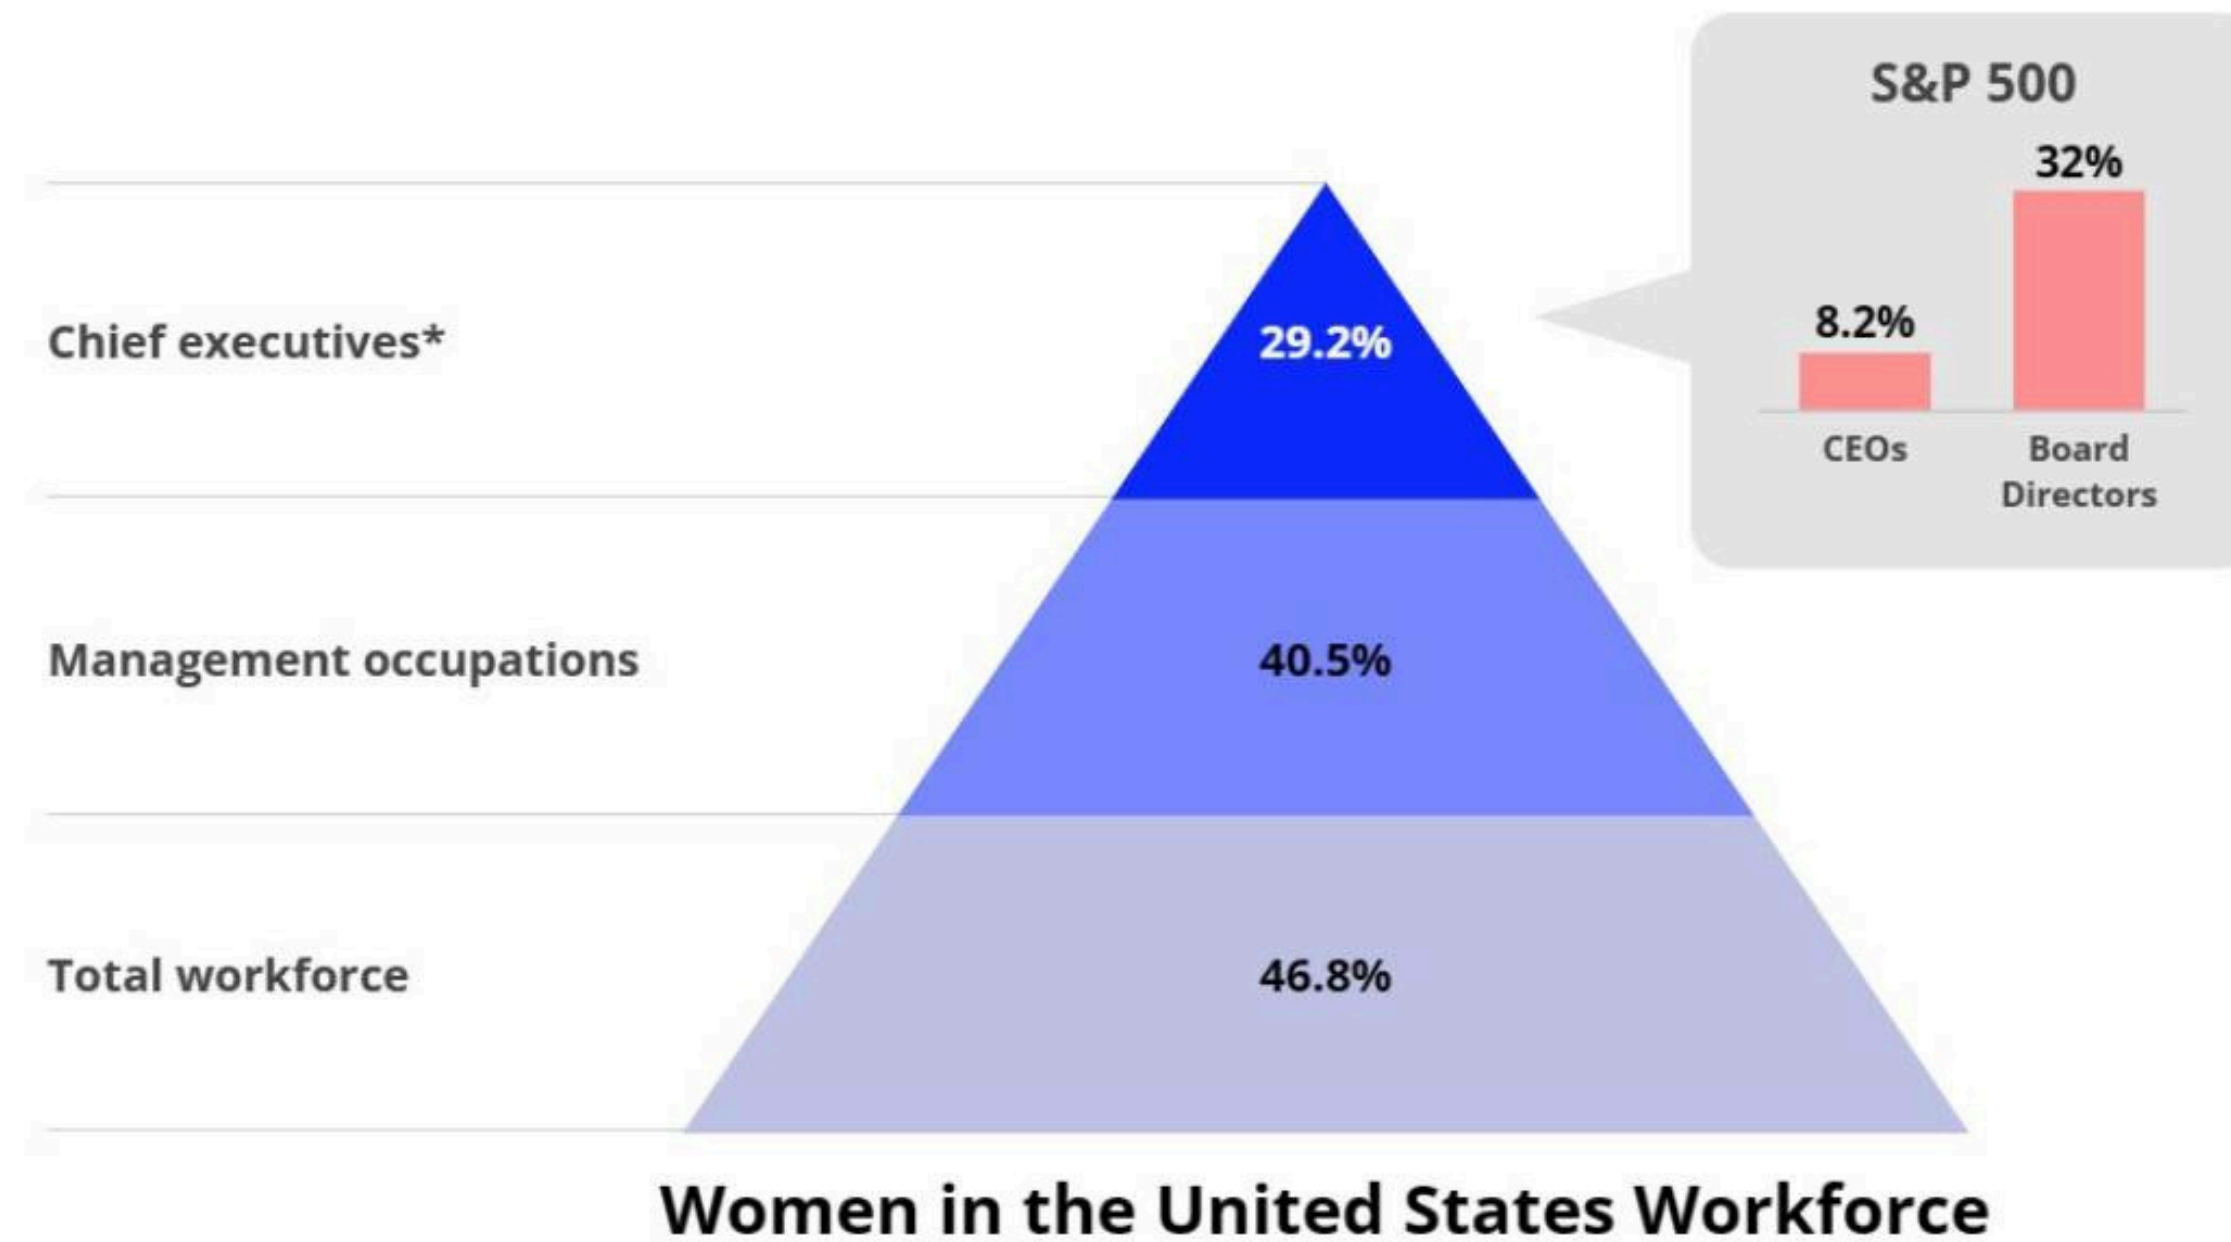

<https://bigblue.academy/en/statistics-for-women-in-tech>

Statistic #3: 75% of Women in the Technology Field Say They Constantly Have to Handle **More Administrative Tasks**

<https://bigblue.academy/en/statistics-for-women-in-tech>

Statistic #4: Women Hold **8.2%** of CEOs in S&P 500 Companies

<https://bigblue.academy/en/statistics-for-women-in-tech>

Statistic #5: Women in Tech in Indonesia

less than 3 out of 10

According to a 2020 report by McKinsey&Company, women make up only **27 percent** of the workforce in the tech industry in Indonesia.

This is significantly lower than the average for all industries in the country, where women make up 40 percent of the workforce.

...
Jumlah pekerja perempuan 38,98% dari total pekerja yang ada di Indonesia. (BPS, 2022)

Statistic #6: Indonesia has the lowest share of women at technology companies (22%)

Sources: Malaysia Department of Statistics; World Bank; Ministry of Education Singapore; International Labor Organization; "Moving Toward Gender Diversity in Southeast Asia," BCG, 2017; International Finance Corporation; BCG analysis.

WHY INVOLVING WOMEN IN TECH

Diversity

Avoiding Bias

Inclusion

1. Diverse Minds Drive Better Innovation
2. Tech Shapes the Future And Women Must Help Shape It
3. Correcting Bias in Technology
4. Role Models Break Barriers
5. Economic Empowerment & Inclusion
6. Tech Needs Soft + Hard Skills

WOMEN LEADERSHIP

Creative

Playing to win

Connection

1. Women score significantly higher on all five **Creative Dimensions**: Women leaders score significantly higher in their capability to “connect and relate to others,” as well as in the Authenticity and Systems Awareness competencies.
2. Female leaders more often lead from a ‘**playing to win**’ orientation—focusing on their natural curiosities about what matters most to the future they are creating and partnering with others to move toward that vision. Male leaders can and do also lead from this orientation, but they are just as likely to lead from a ‘play not to lose’ orientation.
3. Female leaders show up in a noticeably different way than male leaders in terms of building **caring connections**, mentoring and developing others, and exhibiting concern for the community.

COMMON BARRIERS

BARRIERS TO LEADERSHIP REPORT 2025

Respondents:

4274 women in tech

Regions Represented:

North America: 68.4%
Europe: 20.3%
Other Regions
(Asia, Australia, Africa, South America): 11.3%

Roles Represented:

C-suite Executives: 15.3%
Directors and Managers: 48.5%
Junior/Mid-level Individual Contributors: 36.2%

RECOMMENDATION FOR INDIVIDUALS

Lack of awareness or contact with the tech industry

1. Explore alternative entry routes to tech
Joining coding bootcamp, graduate programs, digital leadership academy
2. Self-learning and building knowledge
3. Build a network

Lack of women role models

1. As a woman in tech, **be seen**

Through community engagement and knowledge-sharing, women in tech can contribute to breaking down barriers, fostering inclusivity, and building a stronger support network within the industry.

2. Seek or become a mentor

This provides access to a source of valuable guidance, empathy and support which helps navigate the challenges and opportunities of the industry from a different, more seasoned perspective.

Hiring process & Confidence

1. “Don’t ask, don’t get”

Don’t hesitate to ask for any accommodations you require to ensure a supportive interview process.

2. Know your strengths and values

3. Champion women and build a praise culture

4. Surround yourself with allies

5. Social media sharing

6. Build self-belief through tools, programmes and communities

7. Create a positive feedback bank

DISCRIMINATION

1. Build awareness amongst male allies
2. Speak out

When women speak up, they not only advocate for themselves but also inspire others to do the same, shaping a future where diversity and inclusivity thrive in the tech sector.

WOMEN IN TECH COMMUNITY

CURRICULUM

<https://www.instagram.com/shecodes.binus/>

Takeaways

when women in tech are empowered,
they don't just fill positions — they
build influential paths that drive
innovation, mentor others, and
transform the industry for the better.
